

Hardy ha sido creado siguiendo las pautas de diseño que utilizaba el famoso sastre Edwin Hardy Amies. Diseñado pensando en la confortabilidad, eliminando la exageración y voluminosidad para conseguir un look&feel elegante y atemporal pero con un punto de personalización a partir del juego de tejidos. Su característico respaldo da carácter único. Los brazos están inspirados en los puños de los trajes, destacando el detalle de los ojales y botones que aparecen en los laterales. Hardy se ha diseñado como un sistema de asientos modular perfecto para el relax por sus dimensiones y siendo aplicable tanto para el hogar como para espacios contract.

Hardy has been created following the design principles favoured by the famous tailor Edwin Hardy Amies. The design has emphasised comfort and any tendency towards exaggeration and bulkiness has been eliminated. The result is an elegant and timeless 'look&feel' with a personal touch that is suggested by the scope of textile options. Its characteristic seat back is a hallmark of uniqueness. The armrests are inspired in the refined cuffs of tailored suits. We are drawn to beautifully crafted buttons and buttonholes at the sides. Hardy has been designed as a modular seating system that is perfect for relaxation, thanks to its sizes. Another plus is that it is suitable for both home and contract settings.

### Technical details
